

ROB GRAHAM

Creative Technologist & Gen AI Specialist | Exhibition Multimedia | Interactive & AV Systems

Melbourne, VIC | +61409336251 | rob@fineartmedia.tech | fineartmedia.tech | LinkedIn

PROFILE

Creative technologist, Gen AI specialist and media artist with more than 20 years across museums, galleries, immersive exhibitions and public-facing cultural environments. Experienced across the full multimedia lifecycle: concept development, storyboarding, prototyping, content workflows, AV and interactive system design, physical integration, installation, testing, commissioning, documentation, troubleshooting and ongoing gallery support. Former Museums Victoria Digital Media Specialist / Collections Officer, with subsequent senior technical leadership at Grande Experiences and the National Communication Museum, now applying the same evidence-first approach to generative AI evaluation at micro1.

FORMAL MULTIMEDIA QUALIFICATIONS

Diploma of Multimedia Swinburne University	Bachelor of Media Arts RMIT University	Master of Animation and Interactive Media RMIT University
--	--	---

These qualifications directly underpin my professional practice in multimedia production, moving image, animation, interaction design, digital media and the integration of content with physical exhibition environments.

CORE STRENGTHS

Multimedia & interaction design	Exhibition AV systems	Immersive / projection	Prototyping & commissioning
Generative AI & evaluation	Physical / digital integration	Documentation & handover	Continuous improvement

SELECTED CURRENT MULTIMEDIA & INTERACTIVE PRACTICE

Portfolio: fineartmedia.tech | ARCHAI: fineartmedia.tech/archai | Online CV: fineartmedia.tech/cv

- **ARCHAI / AUXIO** – current RMIT doctoral research and working museum prototype. A sovereign semantic and visitor-experience layer for cultural collections, with 8,000+ staff-searchable records across a 25-source research network. Interaction includes image-first search, QR/NFC access, voice, mobile interfaces, IIIF viewing and evidence-grounded interpretation.
- **Dark Plates** – autonomous media artwork combining live signal, generative image production and physical QR street distribution, developed as practice-based research.
- **FAMTEC** – independent multimedia and exhibition-technology practice spanning immersive environments, projection mapping, fine-art media installation, interactive systems and cultural infrastructure.

PROFESSIONAL EXPERIENCE

AI Specialist, Generative Video & Robotics | micro1 | May 2026 – present

- Evaluates model outputs and agentic workflows, identifying reasoning gaps and providing structured, human-in-the-loop feedback that supports reliability and safety.
- Designs realistic evaluation scenarios, prompts and datasets across generative media, visual reasoning and multimodal AI workflows.

Head of Technology | National Communication Museum | Feb 2022 – Feb 2026

- Led museum technology, exhibition multimedia, digital infrastructure and public-facing systems across a new cultural venue, collaborating with exhibitions, curatorial, collections, visitor experience and operations.
- Designed and delivered practical, maintainable AV, interactive, signage and gallery systems from planning and specification through commissioning, documentation and operational support.

- Led technical staff and coordinated designers, suppliers and contractors, balancing creative intent with usability, reliability, safety and long-term serviceability.

Technical Services Specialist | ACMI | 2020 – 2022

- Provided specialist AV support for exhibition and public-space systems: projection, audio, media-playback and interactive-system installation, commissioning and ongoing operation, collaborating with exhibition designers, artists, curators and contractors.

Senior Technician | Grande Experiences | Apr 2019 – Apr 2020

- Delivered large-scale projection, immersive AV and multimedia environments for high-profile touring experiences, including installation, alignment, testing, commissioning and fault-finding under fixed opening deadlines.

Digital Media Specialist / Collections Officer | Museums Victoria | Feb 2016 – May 2019

- Worked across digital media, collection systems, digitisation and collection access, building direct knowledge of Museums Victoria workflows, standards and multidisciplinary museum practice.
- Managed digital assets and documentation supporting preservation, discoverability and public access, working with collections and technical colleagues where accuracy and maintainability were essential.

Exhibition Technician / Visitor Services / Associate Public Programs Producer | ACMI | Feb 2014 – Jan 2017

- Held three concurrent roles across exhibitions, visitor services and public programs: installed, maintained and troubleshoot AV and interactive systems for exhibitions, staffed visitor services, and produced public programs focused on screen culture, media arts and emerging technology.

Founder / Creative Technologist | FAMTEC | Jan 2018 – present

- Designs and delivers multimedia, immersive, projection and interactive systems for museums, galleries, artists and cultural organisations, from concept and prototyping through installation and support.

CURRENT RESEARCH

- **PhD Candidate, Design, RMIT University** – part-time, practice-based research into the responsible and practical use of AI, interaction design and cultural heritage systems for museums and cultural organisations. Research is undertaken at night and outside normal working hours, and complements my professional multimedia practice.

TOOLS, SYSTEMS & PRACTICAL SKILLS

Adobe Creative Suite (After Effects, Premiere Pro, Photoshop, Illustrator) | DaVinci Resolve | Ableton | TouchDesigner | Resolume | MadMapper | QLab | SketchUp | Crestron, AMX, Extron, Nodel | projection and AV systems | interactive and web experiences | digital signage (BrightSign, MagicInfo) | QR/NFC interfaces | RAG / LLMs, Qdrant, Ollama | Whisper.cpp, Piper, MeloTTS, Chatterbox | collection and digital asset systems (CollectiveAccess, ResourceSpace) | Office 365 | prototyping | hardware/software specification | testing and commissioning | technical documentation | troubleshooting | stakeholder and vendor coordination

LICENCES & TICKETS

Forklift Licence | Yellow Card / EWP | Boom Lift / EWP | Scissor Lift | White Card | Electrical Test & Tag | Heavy Vehicle / Light Rigid Licence | Driver's Licence
